**ORGAN**  
**DONATION**

# Importance

- People need the organs to survive.
- 12 people die everyday waiting for a donation.
- Many people who we know might have failing organs.

# Need for Licensed Donors

- Only 38% of licensed drivers are registered to donate their organs in case of death.
- This would help since everyday 18 people in the U.S. die from waiting for an organ transplant.
- Out of 1.3 million deaths by car crashes only 494,000 have their organs donated after death.

# Positives on Organ Donations

- *It saves people's lives*
- *Dead peoples donations can be used for multiple people.*
- *Organ donations can replace the failing organs and usually last people the rest of their lives.*

# Negatives on Organ Donations

- Organ transplant surgery leave the body cut up and some families believe it's the right thing to leave the body in one peace.
- High cost.
- Pressure to become a donor.

# Controversies

- Sale of organs
  - Ebay
- Pressure to donate
  - Not altruistic
- Murder
- Triage
  - Effective use
  - Cost
  - Amount of people

# Our view point

Organ donation is a useful medical procedure that helps to save and improve many people's lives. However, when doctors start to kill people when they had a chance of living a meaningful life, that's where we draw the line.

# Stats

- Statistics of the percent of people whose transplant worked after 5 years:
  - Kidney (deceased donor): 83.4%
  - Kidney (living donor): 92%
  - Heart: 76.8%
  - Liver (deceased donor): 74.3%
  - Liver (living donor): 81.3%
  - Lung: 55.2%

THANK YOU FOR  
DONATING YOUR  
TIME
